STATINTL

January 28, 1964

STATINTL [redacted]

[redacted] has started fabrication of the Master driver pattern, and they are committed to complete on the March 19 date which was established last December. A purchase order was sent to [redacted] last Friday to make the production driver from [redacted] master. STATINTL STATINTL

25X1A [redacted] quoted 4 weeks to do this.

So the program is pretty well on schedule now and the mid-July completion date looks pretty good.

Now they have e to get on the ball on the electronics items. They can't let them slip along any more or they will become pacing.

STATINTL When [redacted] gets one cycle of the pattern generated, STATINTL he will send a copy to TC. They will send it over STATINTL to [redacted] for measurement.

[redacted] showed me a description of a film reader they expect to be making for [redacted] soon. It has STATINTL some of the basic features you would want in a measuring engine film reader for Chris' shop. Bert will be glad to send you the description, [redacted] if STATINTL you would like to see it. Just ask him for it if you want it.

The Telecordex and equipment you have on order from TC is scheduled for delivery March 6 according to the STATINTL contract. Their production report says they are a few days ahead of schedule, as of Jan 24.
